Merge and Center Cell in Excel

The screenshot shows the Microsoft Excel interface. The ribbon is set to the 'Home' tab, and the 'Merge & Center' button in the 'Alignment' group is highlighted with a yellow box. The 'Find and Replace' dialog box is open, and a red callout box with the text 'Press Shortcut Key:- Ctrl+F' points to it. The spreadsheet shows a table with the following data:

Book	Sheet	Name	Cell	Value
Merge and Centre in Excel.xlsx	Sh...		\$A\$1	Quantity (Sale in month of April

Download

Hi, I just upgraded to Excel 2016 and the customize keyboard option is missing Did they actually remove this option? It was incredibly useful, why would they do this? On the sillier side of things, what happened to 'command+R' to align right? Now, in my new excel, that command copies the contents of the cell from the left to the right.

Merge and Center Cell in Excel

The screenshot displays the Microsoft Excel 2016 interface. The 'Home' tab is active, and the 'Merge & Center' button in the 'Alignment' group is highlighted with a black box. Below the ribbon, the 'Find and Replace' dialog box is open, with a red callout bubble pointing to it containing the text 'Press Shortcut Key:- Ctrl+F'. The spreadsheet shows a table with columns 'Book', 'Sheet', 'Name', 'Cell', and 'Value'. The first row contains 'Merge and Centre in Excel.xlsx', 'Sh...', '\$A\$1', and 'Quantity (Sale in month of April)'. The 'Quantity (Sale in month of April)' cell is highlighted with a red border.
